

March 26, 2020

Dear Families,

Thank you for your continued support of our school and the distance learning that is happening from our Lil' Peacemakers in TK all the way up to our 8<sup>th</sup> graders. I have spent the past three days popping in and out of the daily Zoom classrooms. I am so proud of the students for being prepared each day and working hard. While it certainly isn't the way I usually do my classroom visits, I am so thankful to get to see their faces and hear their voices daily.

As the Department of Catholic Schools mentioned in their last update (March 20, 2020), they had in mind that an extension would be possible. As of today, all diocesan schools will continue distance learning through May 1<sup>st</sup> per the new guidance from the County Public Health Officials.

The entire faculty and staff feel very blessed to have the support of our families as we continue our commitment to supporting the well-being and learning of our students throughout this new journey.

With Blessings,

Mrs. Wright
