- 3) Language Arts and Writing: spelling, vocabulary, writing process strategies, writer's craft, grammar, usage & mechanics, listening, speaking & viewing, penmanship

Textbook: McGraw-Hill Wonders

Math

Our second grade students learn addition and subtraction into the thousands, place value, the use of the decimal point, time and measurement, patterns, money, fractions and probability, geometry and measurement. Students also explore multiplication and division. Word problems, critical thinking, visual thinking, decision thinking and mental math are presented and taught.

Textbook: Eureka Math Squared

Religion

The second grade program fosters the development of Christian attitudes and values. This program enables the children to understand and appreciate the celebration of Mass. The stories of saints, discussion, sharing of personal faith experiences, role playing, music and art help the children experience and appreciate kindness, honesty, forgiveness, concern for others and other Christian values. Preparation for the Sacraments received in the second grade, Reconciliation and First Holy Communion begin the first day of school and are reinforced all year long.

Textbook: Silver Burdett - Blest Are We

Social Studies

The "Reflections - People We Know" program along with Open Court Reading Program and Religion gives the students new insights into their communities and helps them make connections to the larger world. Students learn about how families change over time. Through reading they meet special people who are remembered for their important work.

Textbook: Studies Weekly

Science

The second grade science program consists of 4 units: 1) Animal Biodiversity 2) Plant Adaptations 3) Erosion and Earth's Surface 4) Properties & Phases of Matter. The students do explorations and hands-on work weekly.

Textbook: Mystery Science

Technology Education/Integration

Using the 1:1 iPad ratio, students use applications for math and language arts. Small group rotations use Mathletics to help differentiate and individualize the learning for a child's specific needs. RAZ-Kids is an online reading tool that supports reading fluency and comprehension. Spelling City is a tool for vocabulary and spelling.

Computer Science and Coding

Second grade students learn how to program Sphero robots using block coding. Using these powerful problem solving tools, the students complete projects that combine programming and academics. Using their robots, the students present their poems, stories, teach spelling words, demonstrate map skills, solve math problems, run science experiments and much more. This fosters critical thinking, collaboration, independence, problem solving and creativity.

Plus Music, Art, P.E. Spanish and Library
